AURION

Start out hassle-free

Robustly crafted on foundations of honesty and professionalism, Aurion has set fresh benchmarks for excellence, quality and delivery of services in the field of business set-up in the UAE.

Having helped register more than 1,800 companies across different UAE free zones, Aurion relentlessly strives to improve the quality of service according to international standards.

"Our prime focus is to minimise hassle for investors coming to the UAE," says Nancy De Dios, Senior Business Consultant, Aurion. "We act as a single-window solution providing all consultancy services needed by investors under one roof."

Each investor's requirements are analysed by a team of experts, who send a proposal to match those needs. Aurion works closely with free zone authorities to make the incorporation process hassle-free.

"We assist investors in obtaining a Tax Residency Certificate for UAE Resident companies and individuals, which enables them to claim benefits of the Double Tax Avoidance Treaty signed between the UAE and other countries," explains Joan Biason Fabiculanan, Head of Operations at Aurion.
