

AURION BUSINESS CONSULTANTS

# Tailor-made solutions for business formation

As the saying goes, the best way to predict the future is to create it. The business set-up consultants are the architects of the evolving business landscape in the UAE, choosing the right location to set up a company, and deciding on the licence packages and other office facilities for global entrepreneurs to succeed. They are the face of the UAE whom investors first meet when they decide to launch their companies. Business set-up consultants are the ambassadors of the country.

In the rapidly changing business environment of the UAE, business advisory companies have a major role to play. Aurion takes up the responsibility and extends advisory support to investors, helping them navigate the business landscape. The company offers tailor-made solutions considering each investor's precise business requirements and budget. The highly qualified legal professionals, banking and tax consultants at Aurion give in-

vestors the confidence to set up their companies in the UAE.

The company's corporate services department is focused on enhancing business productivity, improving the quality of business operations, and reducing the operating cost for entrepreneurs. A dedicated PRO agent is assigned to each client to provide the required corporate service support, visa assistance, and help for the opening of a bank account in the UAE. The work process at Aurion is certified by the world-class certifying body QS Zurich, Switzerland.

Aurion strives to maintain the top rank among business set-up consultants by adopting the latest technologies. The investors are made aware about the latest legislation and laws through various channels.

The team is constantly updated on executive decisions, ministerial regulations, latest legislations, business news, and more. Aurion has prepared the corporate tax guidelines for investors with the support of its experienced tax

Syam P Prabhu,  
Founder &  
Managing  
Director, Aurion

consulting team from India and the UAE.

The company is always committed to providing immense value addition to its global clientele through a wide portfolio of corporate service offerings. The VIP package offered by Aurion is a comprehensive business package for high-profile investors. It provides them with the most relaxed and luxurious process of incorporation.

Aurion is a popular name in

the UAE for business consulting and advisory services. The award-winning company is also the registered agent and corporate service provider of 17 major free trade zones. Guided by Syam P Prabhu, a post-graduate in law, team Aurion educates global investors about the latest company laws and regulations. It has been involved in shaping the business ecosystem of the UAE by bringing a huge number of global investors into the country.
